

Building on Being Two Summit

On 18th March 2016, ten participants from the Bristol attended the Summit at Pen Green. Six were students who were attending the summit to celebrate their achievements in completing and passing two level 4 modules of the Early Years Foundation Degree. Unfortunately one student was unable to be released from her setting.

We travelled up in the mini bus leaving at 4pm and arriving at 8pm the night before. Thanks to Amy the administrator at Pen Green I was able to arrange a tour of Pen Green as most of the students had not been to Pen Green before as the study week had been at Haringey. We were also joined by the deputy of one of the Centres in Bristol that specialises in SEND. Thank you Olivia for your interesting and informative tour. We then attended the Summit. It was very moving to hear from a parent her experiences of being a parent of a child diagnosed with Down syndrome and her struggle to have her voice heard when planning for the educational needs of her child. It led to much reflection within the group. There were also sessions facilitated by the National Portage Association and IPSEA. IPSEA provide a free legal service and support for parents of children with SEND.

Students enjoying the Summit

Receiving Our Certificates

Just before lunch was the very proud moment when the students received their certificates for the level 4 modules. Well done to you all for your hard work and dedication.

Congratulations

Congratulations to all the students
